	Title: QUALITY POLICY	Revision: 00	Page 3 of 4

We, Prima Food Processing PLC management and employees believe that Quality is the cornerstone of our success and Food safety is integral to our standard of quality. Each employee who has a direct impact on product, ingredients, packaging, production, storage or transport of products throughout the supply chain is responsible for product quality.

To reinforce our belief in Quality, we strongly committed to comply with ISO 9001:2015 QMS requirements.

Our commitment to Quality includes the following focus areas:

- Production of high-quality product using the best available raw materials, competent employees and well maintained infrastructure
- Assure that our products meet or exceed the expectations of our customers, consumers and other interested parties.
- Proactive evaluation and attention to emerging risks, issues and trends affecting our products, customers and consumers.
- Provide proactive identification and effective management of food safety risks associated with products, processes and technologies.
- Implement Quality programs in production, warehousing and distribution.

To effectively achieve all above objectives, top management, will conduct a permanent awareness campaign to build a strong Quality mindset and establish a Quality culture within the company. The top management will also provide all necessary resources needed to achieve all above objectives. The Quality policy will be communicated and shall be applied by all employees in all departments of the company.
